

First Task

20th July 2025

OVERVIEW

Please find attached Figma design for a contact us page, with responsive design :

<https://www.figma.com/design/OM5tJ8OWH102HaB4qcm7JL/Application-Form--Community-?node-id=0-1&p=f&t=cIWf3BCAkk81SWFd-0>

GOALS

1. Design a responsive page layout with Header and Form
2. Learn how to setup a project with Github
3. Interaction with Forms and how to apply styles on it
4. Apply basic responsive design principles
5. Implement side drawer for navigation on mobile
6. Learn how to interact with Figma

SPECIFICATIONS

- Start with initiating a new project on Github, divide the task into subtasks and push a commit to main branch once you finish each one, like so :
 - Creating Header
 - Creating main content of Contact us
 - Applying styles for form input fields
 - Etc...
- Setup your preferred IDE for this task
- The design should be responsive, for both Web and Mobile
- Notice the Side Drawer for mobile design, Where upon clicking on it a side menu should be opened with the header links
- Try to produce a Pixel Perfect design where your work will be so close to original design
